

MOBILE SECURITY 6

Securing your smartphone and the information it contains is important, but it doesn't have to be difficult. Start enjoying complete mobile peace of mind today!

Complete security for your Smartphone

F-Secure® Mobile Security™ is a complete security solution for your smartphone. In the unfortunate event your phone is lost, stolen, infected by mobile malware or even spied on, Mobile Security helps to safeguard your personal and confidential data. The new Browsing Protection feature identifies which websites are safe to enter and which should be avoided. Harmful sites are blocked automatically to ensure safe surfing. With the help of the new remote GPS locator feature, you always know where your phone is located. F-Secure Mobile Security makes your smartphone completely safe for today's connected life.

Better protection

Enjoy secure mobile web surfing to the full, including online banking and shopping. The new Browsing Protection feature identifies which websites are safe to enter and which you should avoid. Harmful sites designed to spread malware or to steal your online identity, such as banking details, are automatically blocked to ensure a totally safe web experience. The premium Anti-theft feature and new remote GPS locator provide better protection for sensitive information that should not fall in the wrong hands.

Better User Experience

F-Secure Mobile Security is extremely easy to install and use. The user interface is based on extensive usability studies and now comes with S60 Touch screen support, setting a new standard in safe mobile use. The software is highly automated and works invisibly in the background, so you do not have to understand the complexities of mobile security. F-Secure Mobile Security retrieves the newest updates automatically whenever any data connection is used. An additional SMS update mechanism patented by F-Secure ensures that critical malware fingerprints can be delivered even when a data connection is not available. Thanks to its light and efficient scanning technology, F-Secure Mobile Security does not affect the smartphone user experience.

F-Secure Mobile Security 6:

- Complete security solution for smartphones with automatic updates
- Safeguards your personal and confidential data
- Identifies dangerous websites and protects your identity online
- Locates your lost or stolen phone, or the person holding it
- Protects against viruses and other malware

Key Features

Safe mobile surfing

The new Browsing Protection feature identifies which websites are safe to enter and which you should avoid. Harmful sites are blocked automatically to ensure safe mobile surfing.

Detects and removes spyware

F-Secure Mobile Security removes secretly installed software from your phone, ensuring that your system is running smoothly and clean of spyware.

Protects against loss or theft

Mobile phones can easily be lost or stolen, so it's important that you have a way to remotely locate, protect and control the device. With premium Anti-theft you can locate your phone (or a person holding it), lock or erase the confidential data remotely and get informed who stole your phone via SMS. You can be sure that your personal and confidential information won't be misused by anyone.

Protects your smartphone against all types of malicious software

Real-time protection against viruses, spyware, worms and trojans. Automatically updated protection from the world-renowned F-Secure Labs ensure you can safely use your smartphone, now and tomorrow.

Protects your computer against hackers

Keep your private data to yourself, thanks to the cutting-edge personal firewall that stops hackers and worms from breaking into your smartphone (firewall not included in Android version).

Easy to Install and Use

F-Secure Mobile Security is extremely easy to install and use. As the software is highly automated, you don't need to understand the complexities of mobile security. The graphical user interface is based on extensive usability studies and sets a new standard in safe Mobile use.

The Fastest Protection Against Mobile Threats

Frequent automatic updates ensure the fastest protection against mobile threats. Immediate reaction times and fast cures during new and emerging threats are guaranteed by the F-Secure Labs, which are working 24 hours a day worldwide.

Software in Your Language

F-Secure Mobile Security has a clear user interface, including an easily accessible electronic quick guide. Both the software and electronic quick guide are available in your language.
